Intent

Books allow us to travel to wonderful places, experience different cultures, go back in time and explore new and imaginary worlds. At Green Park, we believe that every child should be given the opportunity to experience the joy and wonder that books provide us. We strive to develop the reading skills of every pupil, so that they can become fluent and avid readers and use these skills to thrive. We prioritise giving the children every opportunity to access a wide variety of literature and texts that challenge, inform and inspire them. The future of our pupils matter greatly, so we aim to provide the best education to enable them to become successful in both the present and the future. We offer a broad curriculum in reading that utilises the wide range of texts that are accessible to us and we enrich our pupils' lives with language, knowledge and wonder. We follow a holistic approach to reading to support the development of our pupils.

We aim to:

- Provide quality first teaching of phonics and early reading with clear fidelity across the school.
- Ensure all teachers hold high expectations for every child and provide high quality, well planned lessons in reading (using Little Wandle reading lessons until phonics has been completed).
- Ensure our children have an appropriate reading speed and level of fluency.
- Provide a rich and stimulating reading environment.
- Provide regular 'Reading for pleasure' opportunities.
- Enable children to read with confidence, fluency, understanding and enjoyment.
- Build children's skills in inference and deduction.
- Make accurate assessment and use data to inform future planning.
- Make appropriate provision so every child can make progress in reading.

Implementation:

We aim to enable all children to:

- Learn to read following the Little Wandle Letters and sounds revised scheme.
- Read for interest, information and enjoyment.
- Read a range of texts using a range of media.
- Read regularly at home and in school.
- Develop confidence in their ability to select reading material independently.

READING OPPORTUNITIES

At Green Park, we strive to provide numerous opportunities for children to access books both independently and as part of structured lessons in order for them to consistently practise key reading skills and to build a love for reading. We provide numerous opportunities for them to do this:

Each week, there will be a separate time, for each class, dedicated to 'Reading for Pleasure'. This will be a time where the children can choose what they would like to read and read it in an appropriate

place. At the end of each Reading for Pleasure session the children will be able to share what they have read with their peers.

Early readers read phonetically decodable books as part of their weekly reading lessons over the course of the week.

Early readers also take home a sharing book to enjoy with their parents.

Children take home their independent reading book to share with their family.

All children have independent reading time at the beginning of the school day.

Children can read for pleasure at break and lunch times.

Reading opportunities are provided in topic work set out by our Cornerstones curriculum.

Every class teacher designates time daily to read a text for pleasure with their class. They are encouraged to regularly select high quality texts taken from a carefully selected reading and poetry spine.

Every classroom has a book corner where children can choose a book to read and enjoy at appropriate times.

After-school book clubs held weekly.

Reading assemblies.

Reading themed days including: World Book Day, author visits, Roald Dahl Day, Poetry week.

Phonics and early reading:

Please see individual reading policy for Phonics and Early reading.

Children in Year 2 and above, who have not completed the phonics programme will have regular phonics interventions and reading practise with the class teacher. Interventions will follow the Little Wandle catch up programme.

Following on from Little Wandle early reading, children will be assessed on the Little Wandle reading fluency program. They will follow this until they reach an appropriate reading speed and level of fluency.

Following on from Little Wandle fluency, children at Green Park move on to the Accelerated Reading programme where we aim to guide our pupils through a levelled programme that engages them with a wide range of classic and contemporary texts, assesses through simple and engaging quizzes, and collects data that we use to continuously challenge them and set appropriate targets. Children work through the accelerated reader levels, starting from their own point of entry based on their initial Star Reader Test. The star reader test will give each child a reading level range, based on the score of their

assessment. Each child will then choose books across their ZPD reading range. Children choose their own text from the school library. After each text is read, the children will complete a short comprehension test and receive a percentage score based on the questions they answered correctly. We set the expectation as a school, that the children should gain a score of at least 80%. The star reading text is repeated at the end of each term to assess progress in independent reading and to ensure that the children are reading at an appropriate level.

TEACHING OF WHOLE CLASS READING (See Whole Class Reading Policy)

Inclusion and adaptive teaching:

All children must have regular access to teaching of reading, appropriate to their stage of development. Challenge for all is integral to our teaching and we aim to encourage all pupils to reach their full potential through the provision of varied opportunities. Reading resources must be adapted to aid children's learning.

Impact

Assessment of progress is crucial in effective learning and progress in reading:

- Each child is levelled according to their current phonics level, moving onto their reading level according to Accelerated Reader.
- Teachers track pupil progress in reading each term to ensure the assessment information is up to date.
- Progress is tracked through Little Wandle (for early reading), in lesson assessments, Star Reading assessment and reading comprehension tests.

It is the role of the subject leader to support and work with colleagues on any aspect of the Reading Policy, to assist with planning and resourcing where needed, to keep up to date with and inform staff of new developments in reading through staff meetings, to hold CPD training for staff when appropriate and to track the progress of the children through monitoring of class and year group books and planning. Pupil and teacher voice will also be used to measure the impact of reading in our school.
