4th November 2020

Dear Parent/Carer

Year 5 – VR Experience Day – Monday 16th November 2020

Year 5's topic this term is, Scream Machine. We will be learning all about rollercoasters and the science behind the thrilling rides we love to go on. As part of our topic, Year 5 have been given an exciting opportunity to take part in a virtual reality day using the latest VR technology to bring a theme park directly to us. The children will experience several rollercoaster simulations throughout the day and get to experience first-hand this wonderful new technology. This event is truly going to be a day to remember.

The experience will take place on Monday 16th November and we ask that everyone pays the total of £12. This can be paid using your ParentMail app and can be found as an item to purchase under the 'shop' section.

Children are allowed to come to school in their own clothes on the day.

As well as the VR experience, we will be setting up a variety of theme park themed activities for the children to take part in. If that wasn't enough, we will also be providing theme park themed food, such as popcorn, candy floss and hot dogs. If your child has any allergies, please let us know.

We would like to reassure you that our visitors into school will be wearing masks all the way through their time with us and will be keeping two metre distance from staff and children. The event will take place in the hall so that social distancing can be possible throughout the whole event.

Many thanks

Mr Hempenstall and Mrs Barnes

Year 5 Class Teachers
