

Term 3 - Our Wonderful World - here is a snippet of what we have been up to...

We have learnt about the seven continents of the world and the five oceans. We have found the equator and are able to find hot and cold countries according to their distance from the Equator. We have loved this song

School trip to Dover Library.

We travelled to Dover on the train. We were very excited to show the conductor our tickets!

Thank you to the lovely staff at Dover library for making visit very interesting. We shall be returning our books soon.

Victorian Week

We spent the day in separate classes and our teachers were very strict Victorians! We had to write in chalk and had to sit as quiet as possible - which was really hard! We have learnt about Queen Victoria and also Samuel Wilderspin who created the first playgrounds for children.

Discovery

As well as learning about the continents, oceans and the Equator we have also been looking at human and physical features. We know that human features are man-made like houses, monuments and lampposts etc. Physical features are made by nature for example - mountains, beaches, cliffs etc.

Supertato

In Literacy we read the story of Supertato and how he saved the vegetables from Evil Pea! We created our own villains and then wrote a story about them. Please pop into school to see our wonderful writing.
